

PRACTICE WORK INSTRUCTIONS

Practice Work One

In this work, you have six tasks(todos) to perform which are label in the order that they should be implemented.

The goal of this project is to display the names of all of the students from each of the classes to the user.

Practice Work Two

In this work, you have six tasks(todos) to perform which are label in the order that they should be implemented.

The goal of this project is to delete the fruit that was clicked from the list.

NOTE:

1. In each of the projects, do your implementations to where you see **TODO** and **BONUS**.
2. Go through the project repo and check each file for **TODO** and **BONUS**
3. Do not remove the comment for the **TODOS** and **BONUSES**
